JOBIEST: 10-Year Business & Growth Plan (2026 - 2036)

From African AI Career Platform to Global Talent Infrastructure | Founder's Edition | November 2026

Milestone 1 (By 31 March 2027)
1,000 structured Talent Pool members | 100 monthly paying subscribers (NGN 750K+ MRR baseline) | 50 documented US (30) & UK (20) company partnerships.

Milestone 2 (May 2027 - Dec 2028)
$100,000 cumulative verified gross revenue across 20 months ($15K B2C subscriptions, $20K Employer SaaS, $45K Recruitment Sourcing, $20K Managed Enterprise).

Five Growth Engines
1. Individual Subscriptions (Free / Basic / Premium / Ultra) | 2. Employer Partnerships & Sourcing | 3. Global Talent Marketplace | 4. Enterprise Recruitment SaaS | 5. AI Talent Intelligence & API.

2036 Category Leadership Target
10,000,000+ professionals | 10,000+ active employers | 40+ countries | $100M - $150M annual revenue | $1B+ Unicorn valuation scenario.

Public Team & Partner Intake
Live portal at https://jobiest.com/apply across 6 founding departments, 10 priority roles, internships, collaborators, and US/UK institutional partnerships.

1. Executive Summary

Jobiest (jobiest.com) is an AI-powered career and recruitment technology company founded in Africa with a disciplined 10-year mandate: make finding verified, high-fit roles faster and more truthful for candidates while making discovering, evaluating, and hiring global talent dramatically simpler for employers.

Unlike generic AI resume generators or opaque mass-application bots, Jobiest operates on three foundational product truths:

1. Verified Candidate Readiness: 30 distinct, industry-calibrated ISO A4 resume and CV templates in Resume Studio, backed by honest ATS layout guidance, 10 free career tools, public candidate portfolios, and structured career profiles.
2. Truthful, Human-Supervised Application Execution: Approval-first tailored CV and cover letter preparation against real job descriptions, with monthly quotas counting only confirmed, non-duplicate submitted applications (never failed or retried attempts).
3. Structured Two-Sided Talent Infrastructure: A searchable, opt-in Talent Pool paired with employer discovery, curated candidate shortlists, recruitment partnerships, and enterprise hiring workflows.

Ten-Year Strategic Trajectory at a Glance

Phase	Horizon	Strategic Focus	Core Quantitative Targets
Phase 1: Validation & Supply-Demand Proof	Nov 2026 - Mar 2027	Prove African candidate supply, B2C subscription conversion, and initial US/UK employer demand	1,000 structured Talent Pool members | 100 paying subscribers (NGN 750K+ MRR baseline) | 50 documented US (30) & UK (20) company partnerships
Phase 2: Commercialization & B2B Engine	May 2027 - Dec 2028	Monetize two-sided marketplace across B2C subscriptions, employer SaaS, and recruitment sourcing	$100,000 cumulative verified gross revenue across 20 months ($5K -> $15K -> $20K -> $25K -> $35K)
Phase 3: Regional African Dominance	2029 - 2030	Multi-country expansion across NG, GH, KE, ZA, UG, RW	250,000 professionals | 75,000 MAU | 10,000 paid users | 500 employers | $3M - $5M annual revenue
Phase 4: Global Market Entry	2031 - 2032	Scale cross-border hiring across US, UK, Canada, Europe, and selected Asian corridors	1,000,000 professionals | 300,000 MAU | 2,000 employers | $15M - $25M annual revenue
Phase 5: Enterprise Talent Infrastructure	2033 - 2034	Full suite: Jobiest ATS, Recruiter AI, Talent Intelligence, Assessment, Workforce Analytics, API	3,000,000 professionals | 5,000 employers | 20+ markets | $40M - $60M annual revenue
Phase 6: Unicorn Scale	2035 - 2036	Global category leader in cross-border AI career & talent infrastructure	10,000,000+ professionals | 10,000+ employers | 40+ countries | $100M - $150M annual revenue | $1B+ valuation scenario

2. Five Compounding Growth Engines

Jobiest compounds value across five sequential, mutually reinforcing monetization engines:

Engine 1: Individual Career Subscriptions (Live Production Core)

Direct self-serve recurring subscriptions for job seekers, graduates, remote workers, and experienced professionals:

Plan Tier	Monthly Price (NGN / USD)	Successful Applications / Month	Resume Studio & Free Tools	Portfolios & Tailoring
Free	NGN 0 / $0	0 (5 lifetime on verified Auto-Apply activation)	Full 30-template ISO A4 Resume Studio + PDF/DOCX export + 10 free tools (10/day)	1 public portfolio | 5 AI document credits
Basic	NGN 5,000 / $3.99	30 confirmed non-duplicate applications / mo	Full Resume Studio + priority ATS scoring	5 public portfolios | 30 tailored docs/mo
Premium	NGN 10,000 / $7.99	50 confirmed non-duplicate applications / mo	Full Resume Studio + daily public job-board discovery	10 public portfolios | 60 tailored docs/mo
Ultra	NGN 20,000 / $14.99	Unlimited* confirmed applications / mo (*subject to hourly velocity guardrails <= 25/hr, ToS compliance, dedup, and human approval)	Full Resume Studio + priority discovery & interview prep	26 public portfolios | 150 tailored docs/mo

Engine 2: Employer Partnerships & Recruitment Services (2026 - 2028)

- Curated candidate shortlists, pilot hiring campaigns, Contingency/Retained placement fees, and recruitment agency sourcing collaborations focused first on US and UK remote-friendly companies, SMEs, and fast-growing startups.

Engine 3: Global Talent Marketplace (2028 - 2031)

- Self-serve Employer Hiring Portal subscriptions ($199 - $999/month), verified skill and interview readiness badges, direct candidate outreach credits, and cross-border remote placement workflows.

Engine 4: Enterprise Recruitment Software (2031 - 2034)

- Jobiest Enterprise, Jobiest ATS, Recruiter AI, and Assessment & Verification Workflows sold on annual B2B SaaS contracts ($5,000 - $50,000+ ACV).

Engine 5: AI Talent Intelligence & API Infrastructure (2033 - 2036)

- Jobiest Intelligence, Workforce Analytics, and Jobiest API enabling enterprises, staffing networks, universities, and governments to benchmark skills, salary bands, and verified talent supply across 40+ countries-governed by mandatory human oversight and non-discrimination auditing.

3. Near-Term Execution Plan: Milestone 1 (By 31 March 2027)

Between 1 November 2026 and 31 March 2027 (5 months), every team member, marketing campaign, and product sprint serves three non-negotiable numbers:

Target 1A: 1,000 Structured Talent Pool Members

A "Talent Pool Member" is not an anonymous newsletter signup; it is a registered user with a structured career profile, uploaded or Studio-built CV, role/skill taxonomy, and explicit opt-in consent.

Acquisition Channel	Target Structured Members (By 31 Mar 2027)	Share	Core Tactical Motion
Organic Social Media (LinkedIn, TikTok, Instagram, X, YouTube Shorts)	250	25%	Daily founder-led & creator career breakdowns, live CV teardowns, free tool hooks

University & Graduate Networks	200	20%	Campus ambassadors, final-year career workshops, NYSC & graduate employability clinics
Professional & Tech Communities	200	20%	Product, engineering, design, finance, and operations community partnerships
Member Referrals & Portfolio Virality	150	15%	Public jobiest.com/portfolio/* pages and Resume Studio exports driving organic invites
Direct Candidate Outreach	150	15%	Targeted sourcing of mid/senior African remote-ready engineers, analysts, ops & sales pros
Institutional & Training Partnerships	50	5%	Bootcamps, certification bodies, and career accelerators
Total Structured Talent Pool	1,000	100%	Tracked live in /admin Control Centre

Target 1B: 100 Monthly Paying Subscribers

- Target Mix Baseline (Illustrative Conservative Model):
- 60 Basic (NGN 5,000) = NGN 300,000
- 30 Premium (NGN 10,000) = NGN 300,000
- 10 Ultra (NGN 20,000) = NGN 200,000 (above the conservative NGN 750,000 MRR / NGN 9,000,000 ARR run-rate floor; e.g., 55 Basic + 35 Premium + 6 Ultra + USD international subscribers clears NGN 750,000+ verified MRR).
- Strict Accounting Integrity: Complimentary ADMIN_GRANT plans are tracked in a separate ledger column and never counted toward the 100 paying subscriber milestone or MRR.

Target 1C: 50 Documented US & UK Company Partnerships

- Geographic Split: 30 United States companies + 20 United Kingdom companies.
- Required Outbound B2B Funnel:

1. 1,000 US & UK remote-capable SMEs, startups, and recruitment agencies researched and enriched.
2. 300 decision-makers (Founders, Heads of People, Talent Leads, Agency Directors) contacted via personalized multi-touch outreach.
3. 100 qualified discovery conversations or replies logged in /admin/programme.
4. 50 documented active partnerships verified against Business Rule #1.

Definition of a Verified Partnership (Enforced in /admin/programme): An outbound email or LinkedIn connection never counts. A company counts toward the 50-partner milestone only when at least one of the 5 documented criteria is recorded with a named decision-maker contact:

1. Signed Partnership or Pilot MoU

2. Verified Employer Account created on Jobiest

3. Active Vacancy shared with Jobiest for candidate sourcing

4. Recruitment Agency Collaboration Agreement

5. Written Pilot Confirmation from a company decision-maker

4. Commercialization Plan: Milestone 2 ($100,000 Gross Revenue, May 2027 - Dec 2028)

Following April 2027 audit and packaging of Employer Pilot Case Studies, Jobiest executes a 20-month commercialization drive from 1 May 2027 to 31 December 2028 to generate $100,000 in verified cumulative gross revenue.

Revenue Composition by Stream ($100,000 Total)

Revenue Stream	20-Month Target (USD)	Share	Unit Economics & Pricing Mechanism
1. Individual Subscriptions (B2C)	$15,000	15%	Scaling from 100 to 350+ active monthly subscribers across Basic ($3.99), Premium ($7.99), and Ultra ($14.99)
2. Employer SaaS & Hiring Portal	$20,000	20%	Talent Pool search seats, featured employer slots, and shortlist subscriptions ($150 - $400/mo across 15-30 active employers)
3. Recruitment & Talent Sourcing Fees	$45,000	45%	Curated placement & sourcing fees ($1,500 - $3,500 per successful cross-border or specialist hire; ~15-22 placements)
4. Enterprise & Managed Hiring Pilots	$20,000	20%	Dedicated multi-role hiring sprints & managed remote team pods ($4,000 - $5,000 per managed engagement; 4-5 contracts)
Cumulative Gross Revenue	$100,000	100%	Verified strictly from settled bank/provider receipts

Progressive 4-Month Revenue Ramp (May 2027 - Dec 2028)

Period	Months	Period Revenue Target	Cumulative Verified Revenue	Key Commercial Unlock
Window 1	May 2027 - Aug 2027	$5,000	$5,000	Convert first 3-5 March 2027 US/UK pilot partners into paid sourcing/shortlist engagements + B2C growth
Window 2	Sep 2027 - Dec 2027	$15,000	$20,000	Launch self-serve Employer Shortlist SaaS tier + close 4-6 paid placements
Window 3	Jan 2028 - Apr 2028	$20,000	$40,000	Repeat hiring from retained US/UK agencies & startups + 250+ paid B2C users
Window 4	May 2028 - Aug 2028	$25,000	$65,000	First managed multi-role hiring contracts + diaspora USD subscription marketing
Window 5	Sep 2028 - Dec 2028	$35,000	$100,000	Standardized B2B annual renewals + $8K-$10K monthly run-rate entering 2029

5. Multi-Year Global Expansion Roadmap (2029 - 2036)

Stage A: Regional African Dominance (2029 - 2030)

- Priority Markets: Nigeria, Ghana, Kenya, South Africa, Uganda, and Rwanda.
- Product Evolution: Localized payment rails (Paystack, Flutterwave, M-Pesa/mobile money), pan-African university career center integrations, verified technical/business skill assessments, and regional employer self-serve hiring portals.
- 2030 Exit Metrics: 250,000 registered professionals | 75,000 MAU | 10,000 paying subscribers | 500 active employers | $3M - $5M annual revenue.

Stage B: Global Market Entry (2031 - 2032)

- Expansion Corridors: United States, United Kingdom, Canada, European Union (Germany, Netherlands, Ireland), and selected Asian talent hubs (India, Philippines, Singapore, UAE).
- Product Suite Launch:
- *Jobiest Enterprise* (multi-seat recruiter collaboration)
- *Jobiest Intelligence* (cross-border compensation & skill-supply benchmarks)
- *Jobiest API* (partner job-board & HRIS sync)
- *Jobiest Career Network* (verified peer & mentor referrals)
- 2032 Exit Metrics: 1,000,000 professionals | 300,000 MAU | 2,000 employers | $15M - $25M annual revenue.

Stage C: Enterprise Talent Infrastructure (2033 - 2034)

- Full Enterprise Platform:
- *Jobiest ATS* (end-to-end applicant tracking with structured rubrics)
- *Recruiter AI* (explainable candidate matching & outreach copilot)
- *Talent Intelligence & Workforce Analytics*
- *Assessment & Credential Verification*
- AI Governance & Compliance Mandate: Every ranking, screening, or assessment workflow enforces human-in-the-loop oversight, auditability, GDPR / UK GDPR / NDPA / SOC 2 Type II / ISO 27001 controls, and periodic non-discrimination / disparate-impact testing compliant with EU AI Act high-risk employment AI standards and NYC Local Law 144 equivalents.
- 2034 Exit Metrics: 3,000,000 professionals | 5,000 employers | 20+ active markets | $40M - $60M annual revenue.

Stage D: Unicorn Scale (2035 - 2036)

- Category Position: Default global talent and career infrastructure connecting emerging-market and global professionals with borderless enterprise opportunity.
- 2036 Target Metrics: 10,000,000+ professionals | 10,000+ active employers | 40+ countries | $100M - $150M annual recurring & marketplace revenue | 75%+ blended gross margin | 115%+ Net Dollar Retention on enterprise cohorts | $1B+ valuation scenario (at 8x - 10x forward ARR).

6. Ten-Year Financial Strategy & Capital Plan (2027 - 2036)

Illustrative 10-Year Revenue & Margin Model

Year	Registered Talent	Paying B2C Users	Active Employers	Annual Gross Revenue (USD)	Blended Gross Margin	EBITDA Profile
2027	3,500	180	50 (pilots -> paid)	$25,000	72%	Disciplined founder-led reinvestment
2028	18,000	600	90	$85,000 ($100K+ cum. 20-mo)	74%	Near cash-flow breakeven

2029	90,000	3,500	220	$1,200,000	75%	Seed-backed regional expansion
2030	250,000	10,000	500	$4,000,000	76%	Series A scale efficiency
2031	550,000	22,000	1,100	$10,500,000	77%	Global corridor investment
2032	1,000,000	40,000	2,000	$20,000,000	78%	Series B enterprise buildout
2033	1,800,000	65,000	3,300	$35,000,000	79%	Operating leverage inflection
2034	3,000,000	95,000	5,000	$52,000,000	80%	12% - 15% EBITDA margin
2035	6,000,000	150,000	7,500	$85,000,000	81%	18% - 22% EBITDA margin
2036	10,000,000+	220,000+	10,000+	$125,000,000 ($100M-$150M)	82%	25%+ rule-of-40+ profitability

Five-Stage Funding Roadmap (Milestone-Gated, Dilution-Disciplined)

1. Stage 1 - Bootstrapped & Revenue-First Validation (2026 - H1 2027): Funded by founder capital, strict cloud cost controls, and early B2C subscription cash flow until 1,000 talent / 100 paid subscribers / 50 US-UK partnerships are proven.
2. Stage 2 - Pre-Seed ($250K - $500K, H2 2027 - 2028): Unlocked after Milestone 1 proof; funds dedicated B2B sales leadership, US/UK placement fulfillment, and the $100K commercialization sprint.
3. Stage 3 - Seed ($1.5M - $3M, 2029): Unlocked at $100K+ verified revenue and repeatable B2B unit economics; funds 6-country African expansion (250K users).
4. Stage 4 - Series A ($8M - $15M, 2030 - 2031): Unlocked at $3M - $5M ARR; funds US/UK/EU enterprise sales teams, SOC 2 / ISO compliance, and Jobiest Enterprise.
5. Stage 5 - Series B & Growth ($30M - $60M, 2032 - 2034): Unlocked at $15M - $25M ARR; scales Jobiest ATS, Talent Intelligence, and global corridor M&A toward IPO/Unicorn readiness.

7. Organizational Evolution & Departmental KPIs

Five-Stage Organizational Evolution

1. Stage 1 (Nov 2026 - Mar 2027): Founding Contributor Network (10 - 15 contributors) across Founder/CEO, Growth & Marketing (3-4), Sales & Partnerships (2-3), Technology & Product (2-3), and Operations & Community (2-3), recruited via https://jobiest.com/apply with mandatory 60-day performance reviews.
2. Stage 2 (May 2027 - Dec 2028): Core Commercial Team (15 - 25 FTEs & specialists) anchored by full-time B2B Account Executives, Talent Sourcers, and Core Engineers.
3. Stage 3 (2029 - 2030): Regional Functional Org (45 - 80 staff) with country growth leads across Lagos, Accra, Nairobi, Johannesburg, Kampala, and Kigali.
4. Stage 4 (2031 - 2033): Global Matrix Org (150 - 300 staff) with US/UK/EU enterprise pods, AI research & fairness engineering, and customer success.
5. Stage 5 (2034 - 2036): Global Enterprise Organization (500 - 800+ staff) with dedicated GM-led business units across Consumer Career Cloud, Marketplace, and Enterprise Talent Infrastructure.

Monthly Departmental KPI Cadence

Department	Primary Owner Focus	Monthly Non-Negotiable KPIs
A. Content, Media & Visibility	Brand trust, organic reach & top-of-funnel	Short-form videos shipped/mo (>= 20), organic impressions, free-tool sessions, signup conversion rate
B. Sales & Business Development	US/UK employer pipeline & B2B cash	Researched US/UK accounts (>= 200/mo), personalized outreach (>= 60/mo), discovery calls (>= 20/mo), verified partnerships (>= 10/mo)
C. Strategy & Operations	Execution rhythm, unit economics & 60-day reviews	Weekly scorecard accuracy, contributor 60-day review completion (100%), CAC/payback tracking
D. Technology & Product	Platform reliability, conversion & security	Uptime (>= 99.9%), Resume Studio completion -> export rate, zero quota overcharge bugs, security CI pass (100%)
E. Community & Customer Success	Talent Pool quality & subscriber retention	Structured Talent Pool additions (>= 200/mo), profile completeness (>= 85%), paid churn (< 6%/mo), ticket SLA (< 12h)
F. Partnerships & Expansion	Universities, agencies & diaspora corridors	Active campus/community partners, co-hosted career clinics, candidate placement fill rate

8. Execution Calendar: November 2026 - December 2028

Timeline	Operational Focus	Concrete Deliverables & Exit Gate
Nov 2026	Foundation, Monetisation & Founding Intake Launch	Launch Ultra (NGN 20,000 / $14.99), 30-template Resume Studio, atomic quota ledger, 3-tier Admin RBAC + TOTP 2FA, and jobiest.com/apply portal; onboard Top-5 priority contributors; build first 250-company US/UK prospect list.
Dec 2026	Content Velocity & Outbound Wave 1	Reach 200 structured Talent Pool members, 20 paying subscribers, 300 researched US/UK employers, 80 contacted, and first 8 documented US/UK pilot partnerships.
Jan 2027	New-Year Hiring Surge & Campus Push	University & NYSC employability clinics + January hiring outreach; hit 450 Talent Pool members, 45 paying subscribers, and 20 documented US/UK partnerships; complete first 60-day founding contributor reviews.
Feb 2027	Referral Flywheel & Employer Shortlist Pilots	Deliver curated candidate shortlists to early US/UK partners; hit 750 Talent Pool members, 75 paying subscribers, and 35 documented US/UK partnerships.
Mar 2027	Milestone 1 Closing Sprint	Close and audit 1,000 structured Talent Pool members, 100 verified paying subscribers, and 50 documented US (30) & UK (20) partnerships by 31 March 2027.
Apr 2027	Audit, Case Studies & B2B Pricing Packaging	Audit Q1 cohort retention, publish 5 US/UK pilot hiring case studies, and finalize paid Sourcing + Employer Portal contracts for May 1 launch.

May - Aug 2027	Commercialization Window 1	Convert pilot employers to paid sourcing & shortlist plans -> $5,000 verified revenue ($5K cumulative).
Sep - Dec 2027	Commercialization Window 2	Scale paid placements + diaspora USD subscriptions -> $15,000 period revenue ($20K cumulative).
Jan - Apr 2028	Commercialization Window 3	Q1 global hiring wave + retained agency partnerships -> $20,000 period revenue ($40K cumulative).
May - Aug 2028	Commercialization Window 4	Launch managed multi-role hiring pods -> $25,000 period revenue ($65K cumulative).
Sep - Dec 2028	Milestone 2 Closing Sprint	Annual B2B renewals + Q4 placement push -> $35,000 period revenue ($100,000 cumulative verified gross revenue).

9. Eight Non-Negotiable Business Rules

1. Never Count an Outbound Email as a Partnership: Only partnerships with documented proof (signed MoU/pilot, created employer account, shared active vacancy, agency agreement, or written decision-maker confirmation) count on the Scorecard.
2. Never Inflate MRR with Manual Grants: Complimentary ADMIN_GRANT subscriptions are strictly separated from verified payment receipts (Paystack, Flutterwave, Dodo) in all internal and investor reporting.
3. Never Charge Users for Failed Applications: Monthly application allowances (30 Basic, 50 Premium, Unlimited* Ultra) count only confirmed, non-duplicate SUBMITTED applications.
4. Candidate Truthfulness Over Fabrication: Jobiest tailors real candidate experience and skills; it never invents degrees, employers, or credentials, and keeps human approval on by default.
5. Respect Platform Terms, Security & Privacy: No CAPTCHA bypassing, credential scraping, or unauthorized third-party job-board automation; strict RLS, TOTP 2FA, and GDPR/NDPA compliance.
6. Radical Stage & Compensation Honesty: Every intern, volunteer, freelancer, employee, and partner receives transparent written terms and a 60-day review without false equity or salary promises.
7. Supply Quality Before Supply Vanity: A smaller pool of verified, interview-ready candidates beats 100,000 incomplete signups; employers renew because shortlists convert to hires.
8. Unit-Economic Discipline: AI inference, email, and infrastructure spend must remain metered per tier so gross margin stays above 70% at every stage of scale.

10. Risk Register & Mitigation Matrix

Risk Category	Specific Threat	Likelihood	Impact	Concrete Mitigation
B2B Trust Gap	US/UK employers hesitate to trial an emerging African talent platform	Medium-High	High	Lead with zero-friction curated 2-role pilot shortlists, verified candidate portfolios, and recruitment agency partnerships
Candidate Churn	Subscribers cancel after finding a job or exhausting immediate job search	High	Medium	Pair B2C subscriptions with continuous career tools, interview prep, salary insights, and shift revenue mix toward B2B employer recurring contracts (65%+ by 2028)

AI Cost / Abuse Spike	High-volume Ultra users trigger excessive LLM or submission load	Medium	Medium	Server-enforced hourly velocity limits (<= 25/hr), deduplication, per-plan AI token budgets, and human-approval gates
Payment & FX Friction	NGN volatility or cross-border card failures	Medium	High	Dual-currency architecture (NGN via Paystack/Flutterwave + USD via Dodo Payments) and growing USD-denominated B2B revenue
Regulatory & AI Bias	Employment AI regulations (EU AI Act, UK/US hiring audits, NDPA/GDPR)	Medium	High	Human-in-the-loop defaults, explainable matching criteria, PII redaction (admin_user_overview), and scheduled fairness audits
Early Contributor Attrition	Part-time or volunteer contributors lose momentum before 60 days	Medium-High	Medium	Clear weekly deliverables, Top-5 role prioritization, documented 60-day review milestones, and performance-linked transition to paid retainers

11. Founder's Four Core Priorities & Three Strategic Decisions Framework

The Founder's Four Core Priorities

1. Narrative, Visibility & Trust: Represent Jobiest publicly across LinkedIn, media, universities, and employer conversations so top builders and hiring managers trust the brand.
2. US & UK Employer Relationships: Personally lead discovery calls and pilot design for the first 50 US & UK company partnerships until the B2B sales playbook is repeatable.
3. Product Truth & Quality Bar: Guard the candidate and employer experience-ensuring Resume Studio, tailored documents, and Talent Pool shortlists remain unmistakably superior.
4. Capital Allocation & Talent Density: Recruit high-ownership builders through jobiest.com/apply, enforce the 60-day contribution review, and allocate every dollar/naira to the constraint that moves the current Scorecard milestone.

The Three Strategic Decisions Framework (Used at Every Quarterly Gate)

Whenever evaluating a new feature, partnership, market, or hire, leadership applies three sequential filter questions:

1. Decision 1 - Focus vs. Breadth (Does it move the active Milestone Scorecard within 90 days?): Before 31 March 2027, if an initiative does not directly add structured Talent Pool members, verified paying subscribers, or documented US/UK partnerships, it waits.
2. Decision 2 - Product-Led Self-Serve vs. High-Touch Concierge: Use high-touch founder/BD concierge execution first to win and understand US/UK employer pilots (2026-2027), then codify only proven workflows into self-serve SaaS and AI automation (2028+).
3. Decision 3 - Local Cash Flow vs. Global Hard-Currency Leverage: Maintain accessible NGN pricing (NGN 5K / NGN 10K / NGN 20K) to dominate African candidate adoption and volume while pricing B2B recruitment, diaspora subscriptions, and enterprise software in USD/GBP to build hard-currency resilience and venture-scale enterprise value.

12. Jobiest 2036 Strategic Scorecard (Operationalized in /admin)

The Scorecard below is wired live into the Jobiest Owner Control Centre (/admin) and Founding & Partnerships CRM (/admin/programme):

Horizon	Metric	Target	Source of Truth in Jobiest Production
31 Mar 2027	Structured Talent Pool Members	1,000	public.talent_pool_profiles
31 Mar 2027	Monthly Paying Subscribers	100 (NGN 750K+ MRR)	public.subscriptions (ACTIVE*, source != 'ADMIN_GRANT')
31 Mar 2027	Documented US + UK Partnerships	50 (30 US + 20 UK)	public.programme_applications (partnership_verified = true)
31 Mar 2027	Active Founding Contributor Network	10 - 15	public.programme_applications (ACCEPTED / TRIAL_60_DAY)
May 2027 - Dec 2028	Cumulative Verified Gross Revenue	$100,000	public.payments (SUCCEEDED / PAID) + verified B2B invoices
2030	Regional African Scale (6 Markets)	250K pros | $3M-$5M ARR	Multi-market telemetry
2032	Global Market Scale	1M pros | $15M-$25M ARR	Global B2C + Enterprise ledger
2034	Enterprise Talent Infrastructure	3M pros | 5K employers | $40M-$60M ARR	Enterprise ATS/AI ARR
2036	Unicorn Category Leadership	10M+ pros | 10K+ employers | $100M-$150M ARR	Audited consolidated financials
